

Karen R. Larson Interior Design, Inc. Design Procedures and Services

Karen R. Larson Interior Design, Inc. Provides professional design services. We charge an hourly design fee of \$75. Your first consultation will consist of our designers coming into your home to discuss your expectations for the project and to take measurements. If it is new construction, the first consultation will be in our showroom to review the plans. There will be a \$75 fee for this hour of design consultation. Our time spent designing your project thereafter will be billed monthly at \$75 per hour. We will provide you with an estimate of approximately how many hours of design time we feel your project will entail. Per Clients request, a time limit may be applied to the design time. We will contact you to set up a meeting to review the designs once your design is completed or your hours are expended. We do not allow for any of our designs to be removed from our showroom without a design deposit; you are not obligated to this deposit if you do not remove the plans.

We ask that you sign this document to verify that you are familiar with our services and procedures. We look forward to working with you.

Design time following initial consultation is approximated at _____ hours, at \$75 per hour.
